About me

I'm a frontend engineer who works at the intersection of engineering rigour and design sensibility, taking full ownership of the projects I work on. I'm at my best when the data is complex, the experience needs to feel simple, and the end result has a real impact on the people who rely on it.

Relevant experience

Mar 2023 — Present

Frontend Engineer

Duferco (Lugano, Switzerland)

- Own the full frontend lifecycle across multiple internal products, from architecture and stack decisions to UI/UX design and final implementation
- Built and maintain an internal tool that serves as the operational backbone of a steel manufacturing plant
- Consistently turn complex, structured data into interfaces that are intuitive at a glance yet detailed enough for power users
- Delivered frontends across diverse domains including steel manufacturing, sports technology and insurance, adapting to different problem spaces and user needs
- Collaborate with backend engineers and data scientists to integrate REST APIs and surface complex data through clean, usable interfaces

Selected projects

Svelte Reveal

- Open-source library to create simple reveal on scroll animations with Svelte
- Mainly built with TypeScript and tsup

Fonts Jar

- Open-source Chrome extension to save and manage your favorite fonts on the internet
- Designed with Figma and mainly built with React, TypeScript, Plasmo and Tailwind CSS

Education

Sept 2020 — Feb 2023

MSc in Software and Data Engineering

Università della Svizzera Italiana (Lugano, Switzerland)

Sept 2017 — Jun 2020

BSc in Informatics

Università della Svizzera Italiana (Lugano, Switzerland)

Sept 2014 — Oct 2016

Degree in Visual Design

Scuola Specializzata Superiore d'Arte Applicata (Lugano, Switzerland)

Skills

Programming Languages

HTML, (S)CSS, JavaScript (ES6+), TypeScript

Libraries and frameworks

React, Next.js, Tailwind CSS, shadcn, MUI, Storybook, Zod, Jotai, Zustand, Vitest, Playwright

APIs

REST

Versioning and Project Management

GitHub, Bitbucket, Jira

CI/CD

Bitbucket Pipelines, GitHub Actions

Tools & Platforms

Docker, Figma

Languages

Italian: Native

English: C1

Interests

Tennis, Formula 1, video games (huge Legend of Zelda fan), electric guitar, music production
